1. Ohio Refining Division

Canton, OH 44706
2. Louisiana Refining Division  
U.S. Highway 61 at Marathon Avenue  
Garyville, LA 70051
3. Illinois Refining Division  
400 S. Marathon Avenue  
Robinson, IL 62454

5. Anacortes Refinery  
10200 W. March Point Road

As documented by the attached Statement of Energy Performance, I affirm that the aforementioned plants meet the conditions necessary to qualify for the ENERGY STAR, including an Energy Performance Score in the top quartile of the most current version of the ENERGY STAR Energy Performance Indicator for this type of plant, or for petroleum refineries, scoring within the top quartile of the *Solomon-El*™ scoring system.

I have personally examined and am familiar with the information contained in this Application. The information is based on reasonable inquiry and is, to the best of my knowledge, true, accurate, and complete. I have no reason to believe the plant would not meet all EPA program requirements for receiving the ENERGY STAR.

I am submitting this application within one year of the period ending date on the enclosed Statement of Energy Performance. I understand EPA reserves the right to request and review any records which support the data used to produce the Energy Performance Score for this plant. I also certify that I am maintaining a formal certification file on this plant in accordance with EPA's formal certification file requirements. Furthermore, I agree to associate the ENERGY STAR name and logo only with the aforementioned plants and to adhere to ENERGY STAR's Identity Guidelines.

Sincerely,
